Admiral Gherardi Visited Seventeen of the Vessels.

One of the Greatest Naval Assemblies the World Has Known.

The Fleet Represented an Aggregate Value of \$100,000,000. These Vessels Came to the Extraordinary Number of Over Nine Thousand Men.

FR. MONROE, Va., April 18.—A strange thing happened Tuesday. Admiral Gherardi visited seventeen ships, and not a gun was fired. Ordinarily such a round of visits would have been the occasion for filling this beautiful atmosphere with sulphurous smoke, but when he left his own ship the admiral ordered that no salute be fired, and of the foreigners he made a request, that the same policy should be observed. Tuesday afternoon he went to the six other American ships, but he was carried around with a silence that was more impressive than the salutes, because of its very novelty.

Tuesday morning the admiral had allowed his private barge to be used by the crack crew of the fleet for a race with the crew of the Chicago. With all the visits that he had to pay, this was no time to waste in ceremony, and so he ordered only the six other American ships to be visited. The admiral was seen scurrying across the water in double-quick time, with the spray dashing all over his gold-embroidered cap. These official visits, by the way, have become so numerous that they tax to the utmost not only the already busy staff of Admiral Gherardi, but the hardly less leisure moments of the officers who are lower in rank.

Even with eleven more men-of-war to arrive, the naval rendezvous has rarely assumed proportions which entitle it to rank as one of the greatest aggregations of floating battalions which the world has ever witnessed. Admiral Gherardi passed a moment as he stood upon the deck of the Philadelphia Tuesday afternoon, when he was surrounded by a crowd of men, who were looking at him with much interest. He was surrounded by a crowd of men, who were looking at him with much interest. He was surrounded by a crowd of men, who were looking at him with much interest.

Then the admiral expressed his pleasure at the interest displayed by newspapers in the rendezvous, and remarked the number and possibility of the questions addressed to him by correspondents. He said he supposed your correspondent would like to know how much money was wasted in firing salutes, and receiving a reply in the affirmative, the admiral then said his dignity and actually chuckled.

"Well," he said, "as a matter of fact, all the powder we use has been condemned, and it really is no good for anything else."

The crowd here continues to increase. It has long since filled up every building at Old Point, and now is spilling over into the boarding houses and country hotels of the vicinity. Prices are high in proportion.

In a thousand and one ways the friends of the Republic in England is shown since the arrival of the Blake and her sister ships.

The arrival of the German ships Tuesday added to the constantly increasing excitement. The big Argentine cruiser left New York Monday, and was expected here Tuesday, but it probably lying outside the Cape by company with the two German ships. The German squadron steamed into the harbor late in the afternoon, that if the Kaiser's armada had not been run to boom her cannons some distance down the roads she would have had to wait the afternoon.

Officially announced until 6 o'clock Wednesday morning. She saluted first the U. S. flag and the flag of the American and English admirals as she steamed slowly to place near the Russians. Behind her came the Sessler, a small gunboat of 1,800 tons. The Kaiser's Augusta is the most modern warship now in the fleet, and presents many points of interest.

A Russian Torpedo. ORANGE CITY, Fla., April 18.—Tuesday afternoon the worst wind storm accompanied by rain and hail, ever experienced in this country, passed over Orange City, and in the space of two minutes destroyed about forty buildings of an average value of \$500 each. Many others were more or less injured.

Several of the houses were blown down, and a number of persons were killed. The damage to property was estimated at \$100,000. The wind was from the north, and the rain fell in torrents. The storm was the worst in the history of the city.

Several Places of the Flock. NARVELLY, Tenn., April 18.—Gov. Turner, representatives of the family and the committee appointed by the legislature to select a suitable spot for the site of the new State Capitol, arrived here today. The committee will remain here until the 20th, when they will leave for the site of the new State Capitol.

Doctor Thaw's Under the Cure. PARKERSBURG, W. Va., April 18.—Dr. H. M. Kemp, a leading physician of this state, called here today, and was very much interested in the case of the man who was shot by the police of this city. He was riding on a log train, when a lunatic threw him out, and he was killed.

A VICTORY.

The Workmen of Belgium Successful.

Universal Suffrage Voted by the Chamber of Deputies.

A Dred of a Terrible Uprising of the Populace similar to that of the French Revolution had the effect of bringing the Representatives to Terms.

BRUSSELS, April 19.—In the chamber of representatives Tuesday, by a vote of 110 against 13, with 13 abstentions from voting, universal suffrage was adopted, with a provision for plural voting by the disaffected owning property, according to the amount and situation of the property.

Cheers within the chamber were followed by prodigious acclamations from the enormous crowd that awaited the result of the voting outside the chamber. The greatest enthusiasm was displayed everywhere, and the people joined in a jubilee in honor of the great triumph which they had achieved.

The dread of a terrible uprising of the people similar to that of the French revolution in the residence area against privilege and power had the effect of bringing the chamber of representatives around to the popular side. There can be no doubt in many minds that had the chamber not acted promptly there would have been a revolution in Brussels.

In view of the action of the deputies the labor leaders resolved at a meeting held Tuesday evening to advise the abandonment of the general strike.

The most serious disturbance that occurred Tuesday was reported from Bourghouth, a village a short distance above Antwerp. The officer in command of the soldiers ordered his men to fix their bayonets and then followed the order to charge upon a body of rioting strikers. Four of the strikers were killed and fifteen others received more or less serious bayonet wounds. It is certain that some of the wounded will die.

HOME RULE.

What It Is Claimed It Will and Will Not Do For Ireland.

LONDON, April 19.—In the house of commons Tuesday Lord Randolph Churchill contended that the home rule bill would confer unlimited power upon the viceroys of Ireland—in point of fact, too much. Lord Randolph said that upon examining the constitution of the viceroy chamber of the Irish parliament it was evident that thirty out of its forty-eight members would represent the tenant farmers, who would thus become paramount over every other class. It is hopeless to expect a chamber so formed to protect the rights of the landlords of Ireland.

Mr. Morley, chief secretary for Ireland, replied to Lord Randolph Churchill. The opposition had answered arguments for the home rule bill, he said, almost exclusively, with prophecies. To all these predictions of evil there was one adequate reply: "I do not believe you." Much had been said about sanguine liberal hopes. He could not perceive why liberal hopes were not as substantial as unionist fears. (Cheers.)

Lord Randolph had asked whether there existed a constitution imposing upon a legislature such a restriction as the home rule bill proposed should be imposed upon the Irish legislature. The answer was the easiest one in the world. A person had only to look to the United States of America or to Canada to find instances of such restriction.

The Gold Reserve.

WASHINGTON, April 19.—The gold reserve was not depleted Tuesday, owing to the fact that assistance arrived, according to current rumor, from the west. The amount of gold on hand to the government could not be ascertained, but it is safe to say that no less than \$500,000 was added to the treasury reserve.

King Humbert's Silver Wedding.

ROME, April 19.—Mr. Potter, American minister, has been instructed by President Cleveland to deliver to King Humbert an autograph letter of congratulation on the occasion of the late king's silver wedding, April 20.

Kentucky Legislation.

FRANKFORT, April 19.—The Kentucky senate killed the house bill providing for the sale of cigarettes or cigarette material in the state. A bill to loan the Louisville Industrial Institute for Adult Blind \$10,000, upon condition that it become a state institution was also killed.

Two Men Blown to Pieces.

PROVIDENCE, R. I., April 19.—A boiler in Moon's twine mill, near this city, exploded. Emory Clark and Samuel Perry were blown to pieces. Amos Farrington was fatally injured and John Bowler was fatally scalded. The explosion was caused by the engineer filling the hot boiler with cold water.

Amateur Circus Going to Europe.

NEW YORK, April 19.—August Lacy sent his two trotting stallions, Earnie 8 and Black Jamie, to Europe Tuesday on the steamship Lahn, which sailed for Bremen. The horses will be entered in races in Germany, France, Austria and Italy. He feels confident that they can win.

A New Disease in Mexico.

CITY OF MEXICO, April 19.—There is alarm felt here over a new disease which has broken out within the past ten days and is given the name of entarito by physicians. There were twelve deaths from the disease registered Monday.

Resignations Accepted.

VALPARAISO, April 19.—President Mouta has formally accepted the resignation of the members of his cabinet. Senator Errazuriz has accepted resignation of forming a new ministry. It is believed a cabinet crisis will soon be averted in Brazil.

TO BE A MIGHTY TEST.

The Santa Fe System Alleged to Be the Result of Managers' Agreement.

TORREY, Kan., April 19.—The State Journal says: In viewing of the articles in the Santa Fe road a railroad man Tuesday voiced the following significant information:

"The strike inaugurated here a week ago was the beginning of a trouble which is to test the relative strength of the railroads and organized labor all over the country. It is now the understanding among the men that the real reason their contract was not signed by the Santa Fe was on account of an agreement recently entered into by the General Managers and Presidents' association of all the railroads in the country to sign no more contracts with organized labor, as they said, for their own protection.

"This agreement was entered into by all the roads in the United States at a meeting held in Chicago about the time President Marvel died, and we reach our conclusions about the action taken the meeting from an article written immediately after the meeting by President J. C. Clark, of the Mobile & Ohio. This letter was published in the Railway Age, and the writer proved from his standpoint that railroads must combine to defeat organized labor. Many of the roads, including the Santa Fe, have contracts with other organizations than ours and it is the understanding of the men that these contracts are to be annulled at the earliest possible moment."

General Manager Frey was seen but he refused to either deny or affirm the truthfulness of the statement. He said: "I am not a member of the general managers' association and have never attended any of their meetings and I don't know anything about this matter."

HONDURAS REVOLT.

The Revolutionists Capture Three Important Places.

New York, April 19.—The Times' New Orleans special says: The revolutionists in Spanish Honduras have captured the Bay Islands, Ullula and Ruanan. Last week about 800 men left the port of Ceiba under the command of a nephew of Gen. Polanco Bonillo, in a number of sloops, and sailed for Ullula. Here they captured the government troops and placed a commandant in charge of affairs.

They started for Ruanan and took the place without trouble. The revolutionists are preparing to move by sea from Ceiba to Puerto Cortes, and make an attack on that port. In the interior, Olanillo and Yoro, after a slight skirmish, were taken by the revolutionists. The majority of the people are in sympathy with the revolutionists, and it is with difficulty that the government can be loaded, as nearly all the natives are in arms against the government.

A Nitro-Glycerine Explosion.

LIMA, G. April 19.—An agitator at the High Explosive Co. nitro-glycerine factory was set off Tuesday morning by Clark Robinson, the maker, who was driving a plug in preparatory to making a run of the dangerous explosive. Robinson was instantly killed and Benjamin Dow badly mangled and is in a dying condition. The building was slightly damaged. This is the third time the factory has gone up within the past six months, two men being killed there but a month or so ago.

A Prospective Trouble Looming.

DURHAM, Ia., April 19.—An excited crowd of several hundred has surrounded the jail all of Tuesday morning, awaiting vengeance on Dealey and Robb, who are believed to be two of the two of traps who shot the engineer. The men have been positively identified by those held up and robbed the night of the murder, and by Engineer Lother as the man who saw running away from the car immediately after the shots were fired.

World's Sunday School Convention.

St. Louis, April 19.—Preparations are being made for the seventh international and second world's Sunday school convention, which will be held at the exposition mound hall beginning on August 31 and ending on September 6. Correspondence already received indicates that Sunday schools of all denominations the world over will be represented, and that the convention will be the largest of its kind ever held.

Found With Bullet-Planes in His Head.

WAYNESBORO, Ga., April 19.—An unknown white man was found dead on the railroad track at Waynesville, about 30 miles from here, Tuesday morning. Two bullet-holes were found in his forehead, and his body was badly mangled. The picture of a beautiful woman was found tattooed on his breast in India ink. In his pocket was found a book with the name, "Myra, New York," engraved on it.

Thoroughbred Cattle Endangered.

DRYDEN, Col., April 19.—Three acres of pasture ground for the seventh miles from the city, were destroyed by fire Tuesday morning, causing a loss of \$40,000, which is covered by insurance. The drought has been hardly less persistent in southern Russia the crops have sustained great damage.

The Pope Orders Prayers.

ROME, April 19.—The pope has ordered that prayers for rain be offered for Catholics throughout Italy. Rain has not fallen for two months. In other countries of Southern Europe the drought has been hardly less persistent.

Label Initiators Formed.

SPRINGFIELD, O., April 19.—Logsdon and Myers have formed a Cincinnati cigar manufacturers, arrested by a local union for imitating union label, and fined \$25 each and costs.

Frank Abbott's Occupation.

NEW YORK, April 19.—The Frank special from Rutland, Vt., says Frank Abbott, a well known lawyer, has been appointed the warden, has confessed to his lawyer that he is George H. Abbott, the desperado.
